USB wireless adapters that support Hosted Network? - [Solved]

2019/11/01

Hello,As the title states, I would like to take advantage of the "Hosted Network" feature in Win10, so that I can use my PC to broadcast wifi from my ethernet connection to my PS4, Chromecast, phone, etc, as my router is on the opposite end of the house from my room and I don't feel like running another 100ft ethernet cable upstairs. Unfortunately, it seems that hosted network support isn't listed on most product descriptions, and Googling hasn't netted me any results. So with that in mind, do any of you have any recommendations for wireless adapters that support hosted networks?I would appreciate any help you can give!
