Only slow download speed - [Solved]

2019/11/12

I have had my computer setup for about 6 months now with no issues. My normal internet speeds are around 30down and 10 up. Well today for some reason at most I'm getting 0.10 down and 10 up. If I connect the computer through mobile hotspot off of my phone I get great speeds. Also my phone and ps4 (neither are downloading anything) get the same speeds as normal. I have tried uninstalling drivers and reinstalling them. Restarting my router, wifi extender, and computer multiple times. I am out of ideas.
