Wifi Ping Issue - Far Away From the Router - [Solved]

2019/11/03

ATM we are living without internet and our neighbor is letting us use their for the time being. The router is probably about 3 or 4 medium rooms away. Pretty far away, we usually get about 2 bars sometimes 3. We setup a wifi extender which fixes the disconnecting issue we were having but the ping issue is still there. Latency likes to jump around very erratically and playing online games is basically an impossibility. Wired connection is not possible. What are some ways we could fix this?
