Ubee EVW32C stuck on "telephony status check" - [Solved]
2019/11/03

Hello, I just got a new Ubee Wi-Fi Modem, the internet connection is working just fine when connected to my router (I want to use the modem's wifi since mine router limits the internet speed) or directly to laptop. The problem lies within the modem's wifi, after resetting it, the modem is stuck on checking the "telephony status" so the wifi is not working. The "gateway" option is not showing up when accessing the web user interface. The "Tel1" LED keeps blinking and wifi LEDs are off. Anyone knows how to fix this?
